Sch Elect Comptr & Energy Engr  
Arizona State University  
Tempe, AZ

Dear Hiring Manager,

I am writing to express my interest in the Office Aide position at the School of Electrical, Computer, and Energy Engineering. As a dedicated non-engineering undergraduate student, I am excited about the opportunity to contribute to the administrative support of your dynamic team while gaining valuable experience in an academic environment.

My background in customer service and administrative roles has equipped me with a strong work ethic and the ability to coordinate effectively with peers, faculty, and visitors. I have experience managing front desk responsibilities, where I greeted visitors and ensured efficient operations, which has honed my strong communication skills and enhanced my ability to assist diverse groups of people.

I am proficient in Microsoft Office software, including Outlook, Word, Excel, and OneNote, which allows me to perform tasks such as data entry and electronic filing effectively. My attention to detail ensures that all data is entered accurately, and I am comfortable with tasks involving electronic scanning and organizing documents. Additionally, I have previous on-campus work experience that has familiarized me with ASU's internal procedures, including working with financial and travel systems like Workday.

I am also adept at handling logistical tasks, such as sorting mail, ordering supplies, and managing package deliveries. I understand the importance of punctuality and reliability in an office setting, and I am committed to upholding these standards in all my responsibilities.

I am particularly drawn to this position as it provides a supportive and collaborative environment while enabling me to develop my administrative skills further. I am eager to contribute to the office's efficiency and ensure that operations run smoothly.

Thank you for considering my application for the Office Aide position. I look forward to the opportunity to discuss how my skills and experiences align with the needs of your team and how I can contribute positively to the School of Electrical, Computer, and Energy Engineering.

Warm Regards,  
Armaan Sood
